

REJECT BONUS COMPROMISE

Here and There

Editorial By ALEX. H. WASHBURN

EDITOR The Star: Heretofore I always gave you credit for being a broad-minded man but now I am inclined to agree that you are a squirrel-headed editor. When you get an idea in your head it never occurs to you to give the other side of the question a thought.

Of course you can afford to be cocky. You draw a salary every month and don't know anything about actual hunger.

Well, there are a number of folks in this neighborhood who will experience that if they are forced to sell or give away their cows.

You say the farmer ought to be grateful enough that he got the road across his place to keep his cows off it. That shows how much you know about the farmer's views. Didn't he give enough when he gave the land and timber to build the road? For every 80 acres of wooded land it cost the farmer just about \$200 for the road to cross. How much did you contribute toward building it? About \$2, I reckon. Yet you said some time ago, "Make the landowners fence the road. Yes, that is the solution—but let the fellow who travels the road pay for it. Why can't you see justice? You're such a smart guy."

Your precious tourists and whiskey-heads must be slowed down to miss a cow—but you give them the very natural power to force the double-dip on the east side of Hope. That's the kind of a bird you are. You would further depress the very backbone of your country. You ought not to be allowed to call yourself a citizen.

Nothing but a fool will hit a cow. I also wish to say you told an untruth—a lie if you prefer—when you said that 90 per cent of the accidents were caused by livestock and that the same were the cause of the greater part of community trouble. There have never been a fatal accident caused by a cow in this locality. I am on that road more than yourself, I think, and I know that driftniks combined with speed are the major causes. As far as neighborhood trouble is concerned, we have never had any here and cows have been running out a long time.

Yet you are a wise guy. You know everything. To me you are just a hick editor of a two-bit pamphlet you are prone to call a newspaper. Well, I'll never spend another dime for it. I don't think Sheriff Bearden will get many votes here next election.

I wish you had the guts to publish this but I know you will make sport of it and have a big laugh. Most of these know-it-all-gaps are that-a-way.

How much did you pay on the old gravel highway? We farmers paid about \$20 a year on every 80, until about seven years ago. You didn't pay anything.

We didn't want the concrete road. Our wagons get along very well on the gravel.

I think you have the idea of making peasants out of honest, hard-working farmers. You may be the pride and glory of your family but you are just a pain in the neck to us.

C. A. ANDERSON

April 22, 1935
Fulton, Ark.

The Editor's Reply

I'll begin at the bottom of Mr. Anderson's letter and work up.

1. If you have any "pride and glory of family" you can keep it. I believe every man stands on his own feet.

2. Mr. Anderson says his neighbors don't want concrete roads—that a wagon gets along very well on gravel. What are you going to do when Huey Long gives every family an automobile?

3. It is true I didn't pay anything on the old gravel highway. Mr. Anderson says, "We farmers paid about \$20 a year on every 80 acres, until about seven years ago." And the reason Mr. Anderson and the other farmers aren't paying road district tax today is because this writer and others went out on the stump in 1926, and wrote editorials, supporting the Martineau road program. It was that

PWA Grants Loan to Finish Benton Hospital Project

Governor Futrell Is Given Approval by Telegraph Tuesday

STATE COMPLIANCE

Washington Administrator Says Arkansas Has Met U. S. Terms

LITTLE ROCK.—(AP)—Governor Futrell received notification Tuesday that the Public Works Administration (PWA) had finally approved the loan for completion of the new state hospital at Benton.

Philip B. Fleming, deputy administrator of the PWA, telegraphed the governor as follows:

"Am satisfied that the conditions stated in my letter have been substantially complied with and am glad to advise you that if the second requisition for funds is in order it will be honored promptly. Suggest you so advise the construction committee."

Since the contract is already let, work is expected to be speeded as soon as the construction commission makes out the fund requisition.

Negro Is Given 5 Years for Killing

Cairo Young Pleads Guilty to Stabbing White Man at Prescott

PRESCOTT, Ark.—At an adjourned term of Nevada circuit court Monday, Cairo Young, negro, charged with assault to kill Pomp Whitesides, watchman at the local FERA office last January by slashing his throat with a knife, pleaded guilty and was sentenced to five years in the penitentiary.

Whitesides has recovered. Dewey Hampton, 16, negro, pleaded guilty to firing on Deputy Sheriff Horace Hale when the officer attempted to arrest him last winter, and was sentenced to one to five years in the Negro Boys' Industrial School.

Jack and Dick Martin and Ray Hendricks, young Prescott mechanics, were discharged when Prosecuting Attorney Ned Stewart dismissed indictments charging them with robbing the J. M. Stripling & Sons warehouse here two years ago. State witnesses failed to appear at the last two terms of court.

Interstate Limit for NRA Is Likely

Administration Moves for Drastic Revision of Recovery Law

Copyright Associated Press

WASHINGTON.—(AP)—A movement to rewrite the administration's NRA extension bill, limiting it to strictly interstate business, was disclosed Monday within the house ways and means committee. Objects of the revision, it was stated, would be to minimize the Blue Eagle's effect on the little man and to answer assertions that the law was creating monopolies.

The committee has not taken up the bill officially. It was reported, however, that in private preliminary discussions, some of its most influential Democratic members had expressed their desire to strike from the measure language which might be interpreted as giving the NRA strong power over intra-state business. Representative Sam Hill, Democrat, Washington, acting ways and means committee chairman, said the committee probably would meet late this week to determine when it would begin consideration.

Landscaping Demonstration to Be Held at Experiment Farm

County-Wide Meeting Arranged Friday Afternoon, April 26, by Hope Garden Club

A county-wide landscaping meeting will be held at the Fruit & Truck Branch Experiment Station Friday, April 26, from 2 to 5 p. m. under the auspices of the Hope Garden Club, according to a statement Tuesday by its president, Mrs. K. G. McRae.

The timely program arranged by G. W. Ware, assistant director in charge of the station, includes an address by Mrs. E. W. Frost, president of the State Federation of Garden Clubs, and L. A. Henry, state landscape engineer.

The local station is reputed to be the most complete landscaped institution of its kind in the South and offers a great variety of shrubs, trees, and other ornamentals. Demonstrations in plant growing, cultivation, fertilization, pruning, spraying, insect

Bulletins

JOLIET, Ill.—(AP)—With words of hatred on his lips, Fred Blank, middle-aged farmer, was executed at the state penitentiary Tuesday for the murder of John Hamilton, one of five persons he killed with a shotgun near Fulton, Ill., last September.

NAKING, China.—(Copyright Associated Press)—China fell in line Tuesday with the world-wide armament activities, ordering all male high school and college students to undergo at least one year's intensive military training.

CHICAGO.—(AP)—One woman was fatally burned and another seriously injured Tuesday when trapped in one of seven North Side apartment house fires which police blamed on a firebug. All the fires occurred within two hours.

CALLENDER, Ontario.—(AP)—Dr. Alan Brown internationally known child specialist, examined the Droune quintuplets Tuesday and said they were "satisfactorily recovering" from head colds. The father had asked that the consultant be called in for fear the children's condition was more serious than reported.

May Avert Sales Tax, Says Speaker

Thorn Still Hopeful of Federal Refunding Loan for Schools

LITTLE ROCK.—(AP)—Speaker Harvey Thorn expressed the opinion Tuesday that if the state receives a 10-million-dollar loan for refunding the school indebtedness, "there will be no need for a sales tax."

Thorn said he would go to Washington to renew his efforts to obtain the loan.

Collection Delayed

LITTLE ROCK.—No sales tax will be collected in Arkansas until the constitutional act of 1933, which becomes effective May 1, is determined by the Arkansas Supreme Court.

The test suit, appealed from Pulaski Chancery Court, will be submitted to the Supreme Court May 27.

Earl R. Wiseman, commissioner of revenue, who was enjoined by Chancellor Dodge from collecting the 2 per cent tax on the ground the Hall act is invalid, was advised Monday by the attorney general's office:

"I am of the opinion that the chancery court had jurisdiction to render this injunction, and the fact that its power may have been erroneously exercised will not render the injunction void, but only voidable on proper application, and until set aside or revoked, it is entitled to implicit obedience."

"I think it is equally clear that no attempt should be made by wholesalers or retailers to collect the tax from purchasers until the injunction has been dissolved or the decree of the Chancery Court reversed by the Arkansas Supreme Court."

"I am of the further opinion that any attempt by your department to collect the tax before the injunction is dissolved, or the decree of the Chancery Court reversed, will place you in contempt of court."

Assistant Attorney General Thomas Fitzhugh prepared the opinion.

Tenant Land Bill Victor in Senate

Father, Son Held as Chicken Thieves Sweep the County

Officers Arrest Preacher Walker and Son, of Centerville

ALL BUT ROOSTER

Raiders Grab Every Last One of Carl Reese's Laying Hens

A father and his son were held in jail here Tuesday facing charges of stealing chickens.

The son confessed, incriminating his father, who he said disposed of the chickens, officers were quoted as saying. The arresting officers were, Reginald and Hugh Bearden, and R. O. Robins.

The father was booked as Preacher Walker, the son as Arlis Walker. Both reside near Centerville, where the alleged theft of chickens occurred.

Their arrest resulted after officers investigated complaints by Mac and Emma Campbell.

It was reported Tuesday that a wholesale raid was made Sunday night on the chicken coop of Carl Reese who resides on the Hope-Rooster road.

Thieves carried away every chicken in the coop—except an old rooster. The smokehouse of A. C. Monts of near Rocky Mount, was broken into Sunday night. Several pounds of fresh meat was reported missing.

'Quake Area Runs Short of Water

But Japanese Advise Oth-Powers Formosa Situation Is in Hand

TAIHKU, Formosa.—A Japanese destroyer laden with doctors and supplies was speeding from Mako naval base Tuesday to quake-stricken Formosa areas where 250,000 homeless survivors of Sunday's disaster were suffering from destruction of water sources.

The death toll grew to 3,045 as casualties among the injured and belated reports from inaccessible districts swelled the total.

The scarcity of water assumed graver proportions. Practically all pipelines and water reservoirs had been wrecked by the shocks which devastated 2,000 square miles of this island off the coast of China early Sunday.

Insanity among bereaved parents and children and injured sufferers began to be noticed by relief workers. A screaming tropical sun beat down pitilessly all day Monday. Thousands stumbled with parched and swollen tongues among the ruins of their cities, seeking water.

The Japanese government sent 50 relief parties with doctors, water and food to the stricken districts in the northwestern section of the island where the quake damage was worst. The Japanese army battalion station at Taichu co-operated.

Offers of relief from many foreign sources poured in on Japanese Formosan officials. Admiral B. F. Upham, commander in chief of the United States Asiatic fleet, offered to send an American warship from Shanghai, but the Japanese declined with thanks, saying the situation was in hand.

The American Red Cross at Washington, through Rear Admiral Cary T. Grayson, retired, admitted sympathy and offers of assistance to Prince Tokugawa, president of the Japanese Red Cross.

British naval officials in Hong Kong extended the offer of British warships if needed.

No Inflation, Says Chairman Steagall

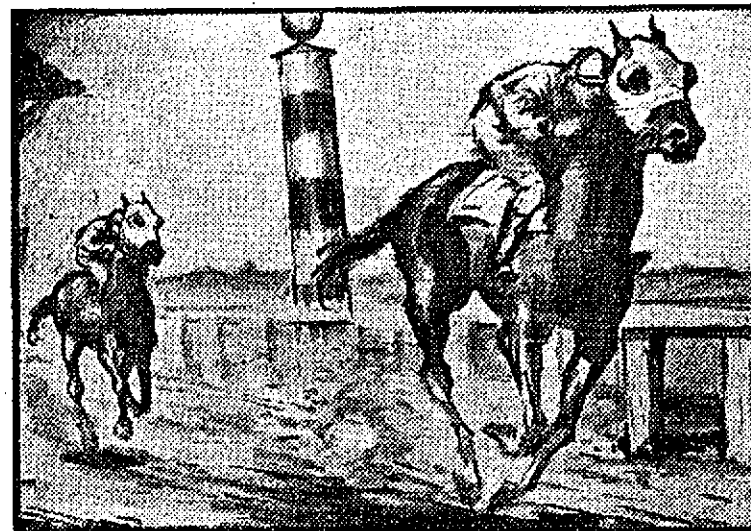

Independent Community Banks Prime Need, He Tells Louisiana

EDGEWATER PARK, Miss.—(AP)—Representative Henry Steagall of Alabama, chairman of the committee on banking and currency, told the Louisiana Bankers association's annual convention here Monday that "there will be no inflation."

He declared the country is "on the upgrade and going strong," and predicted that President Roosevelt would be re-nominated and re-elected.

"What we need above all," Steagall said, "is the restoration of independent community banks in the United States. These banks have been the misadventure of our economic structure. They failed only when the country failed, but the chief evils and blunders in the banking world are traceable to the larger institutions and their management."

This Is Going to Be a Great Horse-Race, Says Major Hoople

Scientist Explorer Big Game Hunter, Adventurer, Biologist, Novelist, Archeologist and Horseman

Egad! Strange how things will out.

The editor of this newspaper has discovered that I am a former newspaper man, and he has asked me to write for you my thoughts and expectations in connection with the greatest match race of the century—meaning, of course, the coming contest between Dreadnaught, my famous steed, and McNulty's nag.

By jove! That reminds me of another match race. Recall you, when Man o' War contested with Sir Barton? Ah! This was a good race, too. Note the picture above. Its the finish of the race. But, well might we say that it's the grand finish of my race—except that the horse trailing, is too close to the winner... Dreadnaught. If my memory serves me correctly... and it usually does... 'twas back in 1920... Oct. 12, to be exact... at Kenilworth Park, Windsor, Ontario, Canada. The day was beautiful; the track was fast.

The race was for \$75,000, and a \$5000 gold cup! Incidentally, I understand Jake has wagered \$350 on MY race.

What little left there is to be said about the coming race, Jake can tell you. I must be off to an engagement at the Owls Club. Great bunch, the Owls Club fellows, what?

(Turn to the comic page and read "Our Boarding House," in order to get Jake's side of things.)

Clipper on Return Flight to U. S. A.

Pan American Plane Reported 600 Miles Off California Coast

ALAMEDA, Calif.—(AP)—Gaining speed the Pan American Clipper raced toward its goal here to complete the first roundtrip of its test flight between California and Hawaii.

Last wireless reports placed the Clipper 600 miles off the California coast.

The huge ship got into the air easily at Honolulu Monday, and climbed slowly, banking over Luke Field, the army air base on Ford Island at 500 feet. It continued to climb until it had completed a full circle, its nose pointed toward Honolulu. The heavy load of 3,000 gallons of gasoline was lifted without apparent effort by the plane's four motors.

As the clipper passed over Honolulu a screaming siren in the Aloha tower on the waterfront summoned Honolulu residents from their residences to see the big white ship.

Chevrolet Closes Plant in Strike

Union Demands Refused at Toledo—2,340 Men Stage Walkout

TOLEDO, Ohio.—(AP)—Chevrolet Motor company officials closed their plant here Tuesday, throwing 2,340 men out of work as members of the United Automobile Workers Federal Union walked out on strike.

The strike came after company officials rejected the union's demand for a closed shop.

California Abandons Film Producers' Tax

SACRAMENTO, Cal.—(AP)—Two taxation proposals directed at the motion picture industry—such moves recently drew warnings from film executives they might move out of California—were pronounced "dead" in the State Assembly Monday.

Assemblyman Frank Laughlin, Democrat, declared he will ask the Revenue and Taxation Committee to kill a film footage tax measure he has pending.

Assemblyman Geoffrey Morgan, Republican, whose bill would tax film a cent a foot, also said he will not press the matter.

Hempstead Farms Increase 10 Pct.

U. S. 1935 Census Moves Total Up From 4,781 in 1930 to 5,280

Hempstead county had on January 1 this year a total of 5,280 farms, compared with 4,781 in 1930—an increase of 10.4 per cent.

These figures were disclosed Tuesday by Okey E. Westfall of Camden, supervisor of the 1935 farm census, in a press release to The Star.

The figures, he said, are preliminary and subject to correction.

60-Gallon Still Taken by Officers

Deputies Watch for Two Days and Nights, But Miss Operators

A 60-gallon capacity still and three barrels of mash, discovered a mile and a half south of Hope near the L. & A. water tank, was destroyed Sunday by Sheriff Jim Bearden's forces.

The still had been watched two days and nights in an effort to capture the operators.

Deputy Sheriffs who raided the still were Reginald Bearden, R. O. Robins and Hugh Bearden.

CCC Is to Handle Erosion Campaign

Conservation Forces Will Be Tripled, President Announces

WASHINGTON.—(AP)—President Roosevelt Monday endorsed a tripling of the Civilian Conservation Corps forces engaged in combating soil erosion.

Approval of the move followed indirect word from the president that before the week is out he will unfold the entire administrative set-up of his \$1,000,000,000 work-recovery program.

Mr. Roosevelt spent the afternoon reading reports, recommendations and factual data pertaining to the work plan. It was said at the White House that plans for division of responsibility among government agencies, with the president closely supervising, had been completed.

American Legion in Opposition to Harrison, Patman

Opposes Both the Administration and Inflationary Measures

DIVORCE AIR FORCE

New Department of Air Virtually Assured—Record Budget for Navy

WASHINGTON.—(AP)—Rejecting compromise proposals the American Legion Tuesday demanded full cash payment of the veterans' bonus.

An organization spokesman appearing before the senate finance committee urged the enactment of the Vinson-Legion bill rather than the Patman or Harrison proposal.

Secretary Morgenthau told the committee that any present bonus plans require additional expenditures and additional taxes.

New Air Department

WASHINGTON.—(AP)—A bill creating a federal Department of Air was head Tuesday for almost certain approval by the house military committee—over bitter Army and Navy protests.

The bill would place the Army Air Corps and civilian aviation activities of the Department of Commerce air bureau under a new cabinet officer, Secretary of Air.

Eccles to Be Approved

WASHINGTON.—(AP)—The senate banking committee voted unanimously Tuesday in favor of the nomination of Marriner S. Eccles, of Utah, as governor of the Federal Reserve Board.

Record Naval Budget

WASHINGTON.—(AP)—The house appropriations committee sounded the warning that the cost of building the American navy to treaty strength "must be disturbing to us an equally disquieting to the other powers" in laying before the chamber Tuesday one of the largest peace-time appropriations in history.

Delay Gold Case

WASHINGTON.—(AP)—The government asked a 30-day delay in the Taft Liberty bond gold case Tuesday in the United States Court of Claims.

Assistant Attorney General Sweeney ordered the motion as not being out of the ordinary, indicating it would give the government more time to prepare its answer.

Bonus Near Senate Vote

WASHINGTON.—(AP)—Assertions that only the Harrison bonus compromise would meet two essentials—acceptance by President Roosevelt and avoidance of new taxes—Monday were flung at administration spokesmen at demands for full cash payment of service certificates.

They were heard as the senate finance committee opened a two-day schedule of hearings on the bonus issue with veterans' leaders ignoring threats of a veto to urge approval of the Patman currency-expansion payment bill already passed by the house.

Despite Mr. Roosevelt's repeated warnings that extra-budget expenditures must be accompanied by new revenue, Chairman Harrison cited to newmen the \$130,000,000 already available in federal funds for payment of the certificates and the recent increased tax collections.

No "Immediate" Increase

"I feel that my bill would not call for an immediate rise in taxes," he said.

The Harrison bill would advance the interest-bearing period of the bonus certificates from 1925 to 1934 and the still had been watched two days and nights in an effort to capture the operators.

Deputy Sheriffs who raided the still were Reginald Bearden, R. O. Robins and Hugh Bearden.

That Democratic strategy will be to hold out the Harrison bill as the best that can be passed in view of President Roosevelt's opposition to full cash payment was emphasized by Senator Bailey, Democrat, North Carolina.

Patman Testifies

With Rep. Wright Patman, Democrat, Texas, asking the committee to approve the bill, Bailey said he understood that neither the Patman nor the Vinson bills would be signed by the president, but that the Harrison bill would be.

"If that is so," Bailey asked Patman, "why pass a bill that will bring the veteran nothing instead of one that will get him something?"

"To be frank," Patman replied, "the soldiers won't get much under the Harrison bill."

Patman conceded the compromise plan would be beneficial for the veteran who held his certificate and did not borrow, but he said the average soldier already owes \$600 on his certificate and would get only \$150 or

Kidneys Suffer Harm In Bright's Disease

Bright's disease, or chronic inflammation of the kidneys, is one of the most widespread conditions in medical practice.

The condition was first described many years ago. More recently it has been realized that there are various types of Bright's disease characterized by different symptoms and a different course, and that the method of treatment depends on understanding its nature.

It is important to study the excretions of the kidneys and to plan the treatment according to the condition of the kidney as it is found by this type of study. For this reason the doctor invariably asks for a specimen of the fluid excreted by the kidney as a first step in the study of the disease. In the acute form, which comes on usually after an infection like that of scarlet fever or after poisoning with certain metallic poisons, the symptoms are sudden. Not only is a diminished amount of fluid excreted by the kidney, but usually there is change in color to a brownish or reddish hue because of presence of blood.

In the acute form of inflammation of the kidneys there may be swelling or puffiness of the face, with headache, nausea, and vomiting. In handling this type of inflammation, the most important step is to eliminate need for action by the kidneys.

By use of cathartics and by sweating, the bowels and the skin are made to get rid of the water which the kidneys cannot eliminate. Application of heat seems to be of value in diminishing congestion of the kidneys.

After healing begins, the diet is carefully regulated to avoid too much pressure on the kidney.

In the chronic form of Bright's disease, there is a gradual change in the tissue of the kidney, leading to formation of fibers in place of the normal tissues of the kidney. As the normal cellular elements gradually disappear from the kidneys, the body attempts to compensate for inability of the organ to get rid of its usual secretion by pushing the blood through faster. Therefore, there is an increase in blood pressure. If the condition continues, the heart may eventually become enlarged.

The fluid coming from the kidney contains albumen, which is a sign of destruction of kidney tissue and also of inability of the kidney to carry out its functions normally.

When the condition is most difficult because the kidneys are already severely damaged, and it is not possible to cause the normal cells of the kidney to come back to take the place of the fibrous tissue already formed.

A BOOK A DAY

By BRUCE CATTION

How a Boy Survived Russia's Revolution—Here's a Book on a Youth's Plight in Time of Chaos

It was the Abbe Sieyes (if this review's memory isn't awry-eyed) who said proudly, when asked what he had done during the French revolution: "I survived."

Something of the same sort of emotion seems to fill the breast of Andre Mikkelson, author of "I Came Out Alive."

Mikkelson lived in Russia. He was just entering his teens when the revolution broke. The son of upper-class parents, he found his world completely shattered. There ensued months and years during which he could devote himself to none of the ordinary concerns of adolescent youth; the one and only problem was to keep alive.

So now, safe in the outside world, he can tell his story. And it is mainly a repetition of the boast of the old Frenchman—"I survived."

The utter confusion of Russian life during and immediately after the revolution is graphically emphasized in this book. Mikkelson took the revolutionary fever himself, for a time, lost it again, wandered about Russia in a fruitless effort to escape, lived by his wits in a land where no living was secure, made futile and abortive

YOUR CHILDREN

Neither Pat on Back Nor Spanking Sets Character

By Olive Roberts Barton

attempts in the midst of all this turmoil to satisfy his adolescent curiosity about sex—and, finally, almost wrecked physically and mentally, managed to slip out of the country and rejoin his father, an exile in Switzerland.

Like the life it describes, the book is confused and rambling. It is a bizarre footnote to one of the great stories of modern history.

Little, Brown and Co. is the publisher; the price is \$2.50.

Both punishment and encouragement have their places. They always will have. It is as useless for people to take sides about all this new punishment business and bark at one another over the fence, as for the shoemaker and the hatter to shout down each other's wares.

In all families there will be times when punishment is necessary, either by denial of privilege or the smacking of skin. Any thinking and responsible mother knows this. She should know, too, that an extreme of punishment is unfortunate in results, and that at best it is remedial, not progressive or constructive in developing character.

Whippings Are Only Incidental

Tiny children are indeed young and tender plants. The real gardener guards the young shoots rather tenderly, until they have accumulated enough growing power to stand the rigors of more heroic blasts. He adds to, rather than takes from, opportunity for later blooming. Natural normal home life is the fertile soil and the sympathetic attitude of family the sun of the "child plant."

In all this, punishment, I repeat, has a certain place. But it is not paramount. It must be regarded as incidental, like castor oil. Therefore it sounds extremely silly for a new class of extremists to make it an issue. The doctor prescribes cod-liver oil for bones and health; he prescribes castor oil for illness. But castor oil is not a food—neither is whipping.

you through hot countries. Watch for sales on cleansing tissues and stock up then. Remember when tots and the old folks were classed as dependents, before the Shirley Temple-old age pension era?

The DARK BLOND

By CARLETON KENDRAKE

HEIN HEIDE TODAY

MILICENT GRAYES, secretary to GEORGE DRINGOLD, and her employer, in this office, JARVIS HAPP, a stranger, offers to help her. He sends her to a beauty shop where she is transformed into a beauty, then takes her home, intending her as his secretary. She meets Hopp's son, NORMAN, his stenographer, ROBERT, and his wife, MARY. They are all in the apartment.

That night a note under her door informs Millicent, "The woman in black, coming to here, Millicent, sees the woman, tries to follow, but looses her. Millicent goes to the apartment, where she finds the character is dead from a bullet wound."

Next morning, SERGEANT MATTONEY takes charge of the case. Over the telephone Mrs. Hopp learns that her husband has been kidnapped. She is warned not to inform the police.

Next morning Millicent learns the owner of the apartment saw the woman in black driving in a Plymouth. They go to her apartment and find a black car. There is also a note left by Bob Caise. They are still in the apartment when they hear a key in the lock.

NOW GO ON WITH THE STORY CHAPTER XXXV

THE key rattled in the lock on the other side of the door. Millicent waited, expecting momentarily that the door would open; that Bob Caise would enter the room and a deadly combat would ensue between him and Norman Hopp. But the door didn't open.

After a few moments the key was withdrawn, and then, after an interval, another key inserted. Once more a key rattled about in the lock and Norman Hopp turned to Millicent and whispered, "It's someone who's trying to pick the lock with a skeleton key."

They stood perfectly still, listening to the noises made by successive keys as they were fitted, one by one, into the lock and the man on the other side of the door tried to open it.

Norman Hopp, leaning close to Millicent so that his lips were almost against her hair, whispered, "We've simply got to find out who that is. Stand perfectly still and don't make a move when I open the door."

"You're not going to open the door!" she protested.

He placed his finger against his lips in a mute command for silence, then leaned forward so that his ear was against the panel of the door. A few moments later the noise made by the key in the lock ceased.

Norman reached for the door knob, Millicent hung her weight against his arm, pulling his hand away from the knob.

"Don't be foolish," he told her. "We've simply got to know who's at the door."

"I won't let you do it. He'll shoot."

"No, he won't. It isn't Bob. Bob has a key. I've got to find out who it is."

"I'll tell you," she said, "what you can do. Wait until he gets in the elevator and then run down the stairs. You can get to the lobby almost as quickly as he does. Then he won't be suspicious. Wait until you hear the elevator door clang and then you can start."

THE words were no sooner spoken than they heard the sound of the elevator door moving on its track.

"Now," she exclaimed, "go ahead. I'll wait. Come back here just as soon as you find out."

He jerked the door open, paused while he peered down the

hallway, said disgustedly, "He's already in the elevator." Then he turned toward the staircase and disappeared around the corner of the corridor.

Millicent closed the door of the room, grateful that she had prevented Norman from rushing into danger, but suddenly realizing that she had left herself in a far from enviable position. She was alone in this apartment, rented by a killer or a killer's accomplice, and Bob Caise, who had threatened to "take care" of her, might return at any moment.

She felt a touch of panic but reassured herself with the thought that Norman Hopp would soon return. She decided to utilize the few minutes that she would necessarily be in the apartment of making a more thorough search.

She went to the writing desk, opened it and looked for some bit of evidence which would give her additional information about the occupant of the apartment.

Mae West Bride? Actress Denies It

It Was Two Other People Back in Milwaukee in 1911

MILWAUKEE, Wis.—(AP)—What? Not Mae West!

Not the Mae West, belle of the Nineties, a blushing bride in 1911? Why, Mae herself, the world famous lobbyist for curves, said not long ago that she had "never found a man I liked well enough to marry."

But Sunday Hollywood, agog, was hunting up the screen star, her relatives and friends and the West family Bible to learn whether a marriage certificate issued here April 11, 1911, to one Mae West and Frank Wallace, then showing at the Gaiety theater in an act-and-dance piece, was in fact the marriage bond of the film actress.

The certificate was turned up quite by accident by Wisconsin relief workers assigned to re-index public records.

Beverly West, sister of the actress, seemed certain it was two other people who got married. Why, Mae never married!

"There's a mistake somewhere," she said.

Still, some of the data on the certificate allied with family history written into the Mae West biography.

Her age, in 1911, was 18. Wallace was 21, from Brooklyn, N. Y. The bride's father was John West—right! Born in New York; and her mother's, Matilda Dikler, a native of France.

Again right! The Gaiety, now a burlesque theater, booked the pair then in "A Florida Enchantment."

Mae Denies It

HOLLYWOOD, Calif.—(AP)—Mae West Sunday night dismissed the story of a reported marriage, 24 years ago, to a Brooklyn actor named Frank Wallace, with the terse and unequivocal statement:

"I never heard of the guy."

"It must have been two other girls," she joked. "As an matter of fact, there were two other Mae Wests on the stage before I came along."

"I never heard of the guy—and I never was in Milwaukee until four years ago."

Then she was silent, for a moment, explaining that she was "doing a little figuring." Suddenly she burst out:

"Besides, in 1911, I hadn't reached the marrying age. How old do you think I am?"

"I've had a lot of things come my way on Easter—colored eggs, flowers and candy rabbits," Miss West said, "but this is the first time I ever got a husband for a present."

Reject Bonus

(Continued from Page One)

\$175 under Harrison's proposal.

V. F. W. Chief Speaks

James E. Van Zandt, commander in chief of the Veterans of Foreign Wars and several others urged the Pathman bill. The American Legion, which stood for the Vinson bill in the house, will appear Tuesday, together with officials of the Treasury and the Veterans Administration. Harrison expected to conclude the hearings by Tuesday night and call his group together immediately to vote.

One voice was raised against any kind of a bonus payment. Donald A. Hobart, national commander of the American Veterans association, said a public demand was rising to "take the profits out of patriotism."

"When the veteran understands this situation," Hobart said, "when he realizes that he must continue in idleness and cannot qualify for public works employment until he has used up his bonus money, he will not consider that the passage of a bonus bill is an act of friendship on the part of his country."

Into My Garden

Your seeds blow into my garden,
friend,
Whenever the wind is right;
They blow on wings of the breeze by
day
And they ride on the gales by night.
Your seeds blow into my garden,
friend,
And beside among my flowers;
In the soft, sweet soil of my garden
They wait for the sun and the show-
ers.
Whenever you grow in your garden
friend,
Of beauty or ugly weed—
The fall will come and the wind will
blow
And over will come your seed.
Your words blow into my life, my
friend,
Or whether of good or ill;
Your thoughts fly over like ships of
love
Or daggers that pierce and kill.
Your smiles blow into my heart, dear
friend,
And neighbor across the way;
And bloom and blossom in buds of love.
A blessing to life all day.
Your life is a garden of love, dear
friend,
And planted with kindly deeds;
So over and over the wall will blow
Sato my garden, your seeds.

Mr. Ozmer has been employed for the
past two years.

The members of the American
Legion Auxiliary are invited to attend
the annual child welfare meeting at
8 o'clock, Thursday night at the city
hall, refreshments will be served and
it is urged that all members and their
husbands be present.

Liquor Headache May Be Removed

Science Thinks Petroleum
Distilling Discovery
Is Applicable

NEW YORK — (AP) — A machine
which can take the "hangover" out of
whisky was announced to the Ameri-
can Chemical Society Monday.

The apparatus is something new in
machine age principles. It operates
like a spiral sea shell set to spinning.
It extracts from liquids substances or-
dinarily inseparable.

Dr. Walter J. Podsielniak of Chicago,
the inventor, said "one thing the new
device can do is to take the 'hang-
over' out of whisky. The hangover is
caused by the presence of certain im-
purities that are always found in new
whisky.

They are partly removed by aging
from four to eight years in charred
oak barrels. These impurities can be
removed completely in a few minutes
in this new separator."

He said there is a possibility of
feeding into one end of the separator
the various ingredients of alcoholic
liquors and taking the finished prod-
uct out of the other end.

It was developed not specially for
liquors but for the distillation and
solvent processes used in making gas-
oline, many other petroleum products
and all the industrial methods of sep-
arating chemical compounds.

Religious Excuses Hit by Evangelist

Georgia Lewis Condemns
Back-Biting, Excuse-
Making Citizens

Miss Georgia Lewis preached Mon-
day night at the Hope Gospel Taber-
nacle on the proneness of humanity to
make excuses.

"Adam and Eve," she said "began
trying to excuse themselves after the
fall in the garden of Eden. God tests
through our flimsy cloaks of excuses.
Disobedience to the Word of God
brings condemnation. In Luke 14:16-24
we have the unreasonable excuses of-
fered by those who were invited to the
marriage supper but who did not
care to come. They were engrossed in
material or worldly things.

"Just so today people are so taken
up with the things of the world that
they have no time for God. When
they finally stand before the judgment
seat of God their flimsy excuses will
slip from them and they will stand
naked before God.

"God gives the broad invitation to
all today—'Come.' He is waiting for
you to partake. We are to appear in-
dividually before God on that last
great day to answer for the deeds of
this life. It will do no good then to
make the excuse that you are as good
as some professing Christian. You will
have to answer as to how you treated
the Word or message of God. To say
that there are too many hypocrites in
the church is just an excuse.

"Some procrastinate by saying 'Not
tonight.' 'Some other time.' etc. Peo-
ple can put God off until their hearts
become as hard as stone. 'He that be-
ing often reproved and hardeneth his
neck shall suddenly be cut off and
that without remedy.' He says 'Come,
for all things are now ready.'"

Tennessee Makes 5 Pct. Beer Legal

Sales Tax and Other Re-
venue Measures Fail—
an Extra Session

NASHVILLE, Tenn.— (AP) — In an
eleventh-hour move, the Tennessee
legislature late Monday enacted a law
increasing from 32 to 5 per cent the
legal content of beer sold in the state.

The senate, which earlier had turned
down a house-approved measure
raising the limit, reconsidered after
proponents had said it would double
the present \$325,000 annual yield from
the beer tax and that it had Gov. Hill
McAlister's approval.

This was the only measure passed
by the General Assembly during its
75-day session that promised any ad-
ditional revenue. Adjournment Mon-
day night found the Treasury \$2,500,-
000 in the hole, and it was necessary

Held Worth His \$206,250 Salary

His annual salary of \$206,250
is not too much to pay Walter
S. Gifford, above, president of

one enthusiast even declaring
Gifford worth more than that, in
a chorus of eulogy of his direc-
tion of the corporation.

Japanese Taking Over North China

Bankers and Industrialists
Are Purchasing Tex-
tile Mills

TIENTSIN, China.— (AP) — Japanese
commercial expansion in North China
reached Monday the point of almost
complete domination of the cotton
industry, most important enterprise
in the area, with only one mill re-

to authorize a \$1,500,000 bond issue to
meet an ultimatum from the federal
Relief Administration that unless that
amount was provided all federal re-
lief funds would be withdrawn from
Tennessee.

Twice the legislature rejected 3 per
cent sales tax proposals, and it also
threw out suggestions for levies on
amusements, soft drinks, lubricating
oil and natural gas. A local option
liquor legalization measure, estimated
to raise between \$2,000,000 and \$2,500,-
000 a year, was crushed.

Abandoning his sales tax idea, Gov-
ernor McAlister will call the As-
sembly into a 20-day extra session
about June 1 in another effort to bal-
ance the budget.

League President to Be U. S. Judge

Martin, of Southern Asso-
ciation, Gets Memphis
Appointment

WASHINGTON.— (AP) — President
Roosevelt nominated John D. Martin,
Sr., of Memphis, to be federal judge
for the Western District of Tennessee,
succeeding the late Judge Harry An-
derson.

The nomination of Martin was re-
ferred to the Senate Judiciary Com-
mittee for consideration. There was
no indication that it would be op-
posed.

Mr. Martin is beginning his seven-
teenth year as president of the South-
ern Association of Baseball Clubs. The
appointment as judge would not re-
quire him to resign his position as president
of the Southern Association. Baseball
Commissioner Kenesaw M. Landis
remained at his post as fed-
eral judge for some time after he re-
ceived the position he now holds.

mainly wholly under Chinese own-
ership.

Threat of actual military penetra-
tion of this region, formerly the seat
of the Chinese dynasty, have long
since died down, but observers point
out that the Japanese conquest of the
vast territory north of the Yellow
river continues with Japanese capital-
ists, diplomats and businessmen tak-
ing up where the soldiers left off.

North China is more and more tak-
ing on the aspect of Manchuria as
that area was just before the Japanese
military campaign.

A huge tract of land on the out-
skirts of the Japanese concession of
Tientsin recently changed hands. It
has been reported that the area is to
be used as a site for new Japanese
cotton mills.

Experience counts in giving the
best permanent wave.

dium benefited them. If it does not
benefit YOU, consult a physician.

opening the Exchange Bank of China
here. This is expected to become the
financial headquarters of Japanese
economic expansion in North China.
The purging of the municipal gov-
ernments of Tientsin and Peiping to
eliminate anti-Japanese officials, is
nearly completed. Yin Tung, right
hand man of the head of the North
China government, Huang Fu, has
gone to Tokio to discuss the possibili-
ties of closer collaboration between
Manchoukuo and North China.

King Boris Becomes Bulgarian Dictator

Arrests Military Men and
Saves Civil Government
of Kingdom

SOFIA, Bulgaria.— (AP) — King Boris
became the world's newest dictator
and one of its youngest Monday after
forestalling an eleventh-hour attempt-
coup and rebellion by military lead-
ers.

Details of the 41-year-old king's de-
termined after he became master of
the situation.

Extremist officers of the Military
League, which had the country in its
grip until the cabinet resigned four
days ago, realized Sunday the king
was absolutely determined to have a
civil and constitutional government.

They planned a coup.
Boris got wind of it and forestalled
a rebellion by summoning a score of
ring leaders of the Military League to
the palace. Military leaders were de-
fiant and made it clear they would
not tolerate a purely civil cabinet.
Boris quickly decided to make the
infatigable officers' prisoners. Hes-
itating to trust the regular army, he
called to the palace 200 royal military
students and with drawn bayonets
kept the officers under guard in the
throne room. He ordered all impor-
tant state buildings placed under a
strong guard.
The once all-powerful Military
League appeared dead and Boris su-
preme.

COTTON SEED for sale. Coker's Wilds No. 5 and Misdell. Crown by Lemley and Lemley. Tom Kinser 23-31p

Tenant Land Bill

(Continued from Page One)

Monday which prompted Democratic leaders to forecast its ultimate approval.

A vote of 44 to 37 turned back an effort by coalition of Republicans and Eastern Democrats, aided by a few Southern members, to return the measure to committee for further study.

Senator Byrd, Democrat, Virginia, moved the recomittal, asserting it was the most "loosely and crudely drawn" measure ever submitted to the senate.

Forty Democrats, two Republicans—Norris and Schall—and La Follette, Progressive, Wisconsin, and Shipstead, Farmer-Laborite, Minnesota, voted against recomittal. Twenty-one Democrats and 16 Republicans favored Byrd's motion.

Opposing recomittal, Senator Robinson, the Democratic leader, asserted that since the war there had developed a growing tendency for farm lands to "pass from the control of those doing the farming."

Senator Bankhead assailed the Byrd effort as one to "kill the bill." He pleaded if this was to be done, it should be done "directly."

In proposing to eliminate the bond authorization, Bailey said if the bill passed as now drawn "we might just as well make a clean sweep of it and send for Dr. Townsend to run the government."

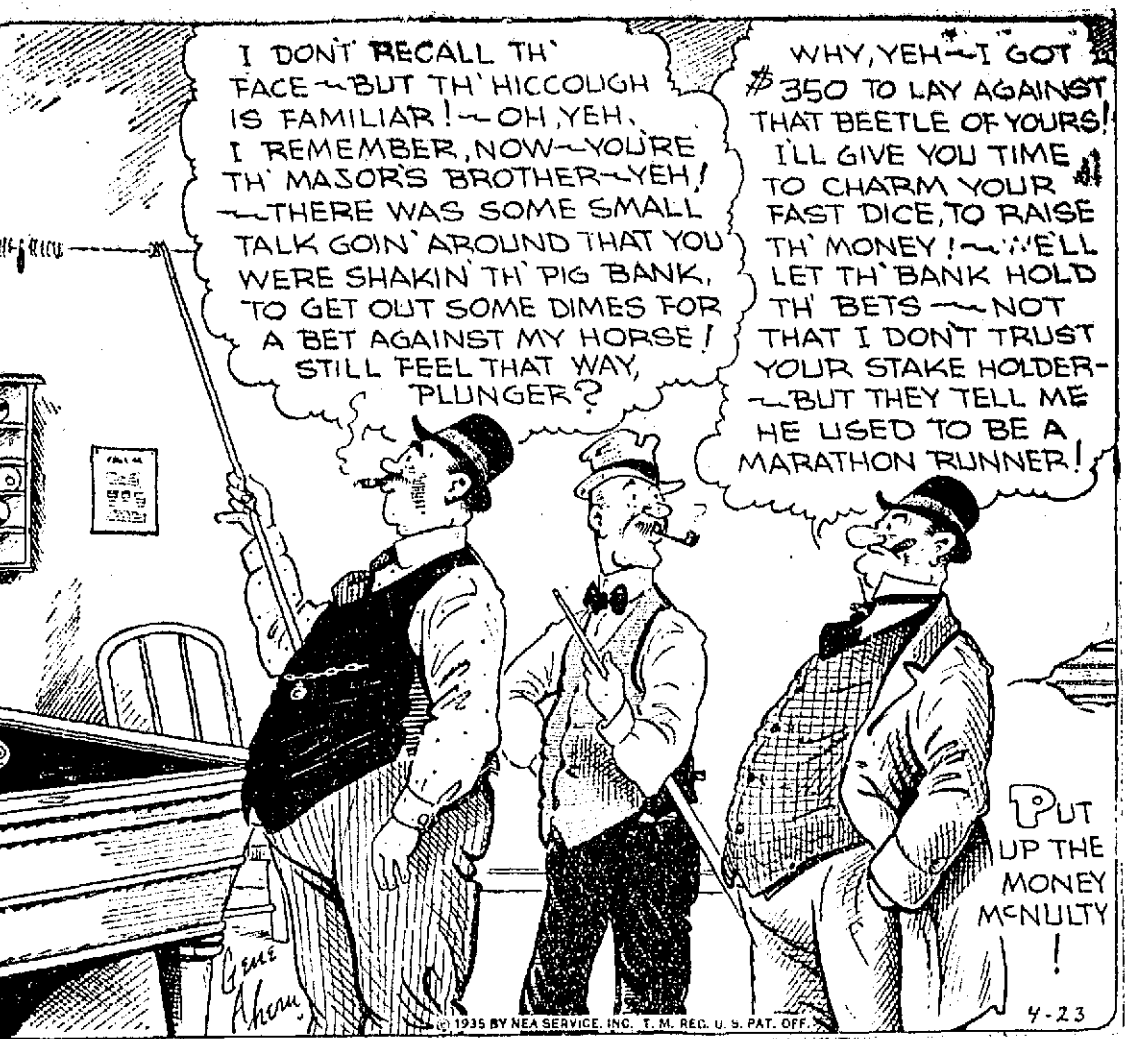

Taking another blow at the measure, Senator Long, Democrat, Louisiana, said it proposed to bring more land into cultivation while another administration effort was directed at acreage restriction.

"Where in the hell are we going?" he asked.
